# CONTAINER STORAGE

FOR THE REMOVAL AND LOGISTICS SECTOR

## TRIED AND TESTED

SUCCESSFUL IMPLEMENTATION IN THE REMOVAL, HAULAGE AND LOGISTICS SECTOR

Containers have become an established method of transport and storage over the past few decades – especially in the shipping industry. You can sit back and relax as we collect your goods and store them in containers. Forwarders simply have to drive their lorry into the hall – containers are automatically unloaded and brought to their reserved storage space.

## TECHNOLOGY AT WORK

FOR SMOOTH REMOVAL LOGISTICS

KECO intralogistics were designed and developed by the specialists at HIT Hafen- und Industrietechnik GmbH with a special focus on the self-storage of containers. Our intralogistical services are provided in collaboration with HIT and Matthäi Schlüsselfertigbau. Forwarders, removal companies and logistics specialists can benefit from our extremely easy handling with no additional staffing requirements.

## DIGITAL

ADMINISTRATION AND WAREHOUSING SOFTWARE FOR COMPLETE CONTROL

Our integrated system takes care of all the administrative tasks involved in each process, including connection to your merchandise management / ERP system. All specific data can be retrieved, checked and documented at any time on a PC, tablet or smartphone.

# SECTORS

THE SOLUTION FOR EVERYONE  
IN NEED OF LOGISTICAL SERVICES

## LOGISTICS

FULLY AUTOMATED FOR  
INCREDIBLY EASY HANDLING

It's never been easier for the logistics sector to outsource all or part of its container storage. KECCO makes this a work of art - in an instant and at the push of a button! KECCO - the storage concept with an automated crane system.

## HAULAGE

HIGH PRECISION AND  
FULL AUTOMATION

We can easily store 20-foot containers, high cube containers, refrigerated containers, building site containers and much more. We work around the clock with no additional staffing requirements. Special zones and storage strategies are specified. Our high-performance IT lets you effortlessly manage your warehousing.

All KECO solutions are available through Matthäi Schlüsselfertigbau.
